

Whydah
GCI44B

Take ye ole "Shortcut"
Between the Five and Seven
Make your way to the end
And you're sure to find my "heaven".

With your right pegged leg in the water
And your left foot on the land
You're now headed in the right direction,
So be sure your GPS is "in hand".

Waypoint your current location,
For accurate your measure must be.
Now walk for Point Three Seven miles
To find me gold at Cache Three!

You'll know you're close to target,
Where they birds are found protected,
Pay close attention to the signs
Or the Cache could go undetected!

Take a moment at the inlet
To stop and look around,
Me Gold is now so very close,
It's begging to be found!

Place your hand on the Real Florida, A
Pirate's dream and delight,
Now if me gold was a snake with teeth,
Surely it would bite!
